

BECOME A POLLINATOR AMBASSADOR

Logo by Samantha M., Age 7

Would you like to be a Pollinator Ambassador for your neighborhood?

Enter for a chance to be selected to have a front yard 10' x 6' pollinator habitat garden bed installed to spread awareness about the importance of pollinators! Donations raised will be used to help create more pollinator habitat within our community.

******Must be a resident of Delaware, Marion, or Morrow Co******

A \$10 suggested donation gives you a chance to win:

- A front yard design measuring 10' x 6' for your new pollinator habitat garden bed
- Native plants selected for your site
- Volunteer help for installation
- Signage to post with the habitat

Complete on back

The nature of your selected area: Does it seem to be wet or dry, shaded or open, near trees, near your sidewalk, etc.? (Please note it must be a front yard space to make the planting as visible to the larger public as possible.)

What do you most want to achieve with your pollinator garden?

PLANT IT FORWARD

We only ask that each winner agree to “plant it forward” by helping out with other plantings and/or promoting native plants with your family, friends and neighbors!

WATER SOURCE

You will need to consider a water source and prepare to water the site for at least 3 weeks after planting. We will give you some pointers for maintaining your area in the coming months & years.

PLANT & DESIGN CONSIDERATIONS

Choices will be determined in conversation with you and with the nature of your land, plus weather and plant availability.

WAIVER FORM & DOCUMENTATION

In our first conversation, we will need to fill out a joint contract and liability waiver form. Additionally, we want to document the process—and share photos—so that others can learn from your experience.

To be selected, you must have the authority to make changes to your yard
